CALL FOR PAPERS
8th ConTEL – INTERNATIONAL CONFERENCE ON TELECOMMUNICATIONS
JUNE 15–17, 2005
Sheraton Zagreb Hotel, Kneza Borne 2, HR-10000 Zagreb, CROATIA
http://www.contel.hr/

The 8th International Conference on Telecommunications, ConTEL 2005, will be held in Zagreb, Croatia, from June 15–17, 2005. Through its technical program, the conference will provide an opportunity for the academic and industrial community to address new research challenges, share solutions and discuss issues in information and communication technology (ICT) referring to modern telecommunications.

Zagreb is a charming city offering a pleasant mix of Western European business style and Mediterranean informality. Every visitor may find a favorite spot, be it behind the well-preserved walls of its romantic Upper Town, or in a daily hustle and bustle of cafes, restaurants, and stores in its Downtown. Further on, the wonderful coast of northern Adriatic, as well as the exceptional Plitvice Lakes National Park, are just a few hours’ drive away.

A broad range of topics is proposed. This year we particularly encourage submissions in the area of IPv6 deployment and applications, which will be considered in parallel for publication at ConTEL and in an international journal (details to be announced later). Papers that describe testbeds, measurements, experiences and solutions in IPv6 transition and deployment, as well as papers related to IPv6 applications, are invited.

For up-to-date information on ConTEL, visit the ConTEL Homepage: http://www.contel.hr/

ORGANIZED BY: Faculty of Electrical Engineering and Computing – University of Zagreb, IEEE Croatia Section, IEEE Communication Society Croatia Chapter

TECHNICALLY CO-SPONSORED BY: IEEE Region 8, IEEE Communications Society

TOPICS
Topics of interest include:

- All-optical networks
- e-Commerce & e-Government
- Information society
- Internet applications
- IPv6: deployment and applications
- Knowledge management
- Mobile agents
- Mobile and wireless communications
- Modeling and simulation
- Multimedia communications
- Network design & planning
- Network operations & management
- Networked virtual environments
- Next generation network (3G and beyond)
- Quality of service
- Security & privacy
- Software engineering
- Telecom market
- Traffic & performance
- WWW technologies

IMPORTANT DATES
We are soliciting original contributed technical papers to be considered for presentation at the Conference and publication in the Conference Proceedings. Authors are also invited to submit proposals for invited sessions/papers/talks by topic of interest.

- October 30, 2004: Special Session Proposals, Due
- January 28, 2005: Full Papers, Tutorial/Workshop Proposals, Due
- March 15, 2005: Notification of Acceptance/Rejection
- April 8, 2005: Final, Camera Ready Papers, Due

PAPER SUBMISSION
Papers must be submitted electronically before submission deadline, via Web upload only. Instructions and guidelines for electronic submission are given at the ConTEL Web site: http://www.contel.hr/.

Papers should be submitted in standard IEEE double-column format for conferences. The first page of the paper, centered on the top below the top margin, should include the paper title, the authors' names and their affiliations, an abstract, and keywords. Eight pages are allowed for each paper. Illustrations and references are included in the page count. Submitted papers will undergo a peer review process, coordinated by the International Program Committee.

SPECIAL SESSION PROPOSALS
Proposals for special sessions should contain the session organizer(s) short biography and contact information, the title of the session and a brief description (up to 500 words) of the special session topic, and its objectives. The organizer(s) should also provide a list of at least three speakers and (tentative) titles of their papers to be submitted to the special session. Proposals should be sent by e-mail to the Program Chair by due date.

TUTORIAL AND WORKSHOP PROPOSALS
A tutorial/workshop proposal should contain the tentative title of the tutorial/workshop, speaker(s) short biography and contact information, an extended abstract (up to 2000 words), and a table of contents of the material to be covered. Proposals should be sent by e-mail to the Program Chair by due date.

For general program technical inquiries about the conference, please contact the Program Chair.
